

THE TOPIC OF MY PRESENTATION IS STOP WAR

I AM GOING TO TALK ABOUT

- * WARS AND WHAT IT BRINGS
- * RESPECTING HUMAN RIGHTS
- * LIFE OF CIVILIANS DURING THE WAR

WHAT WAR BRINGS?

Wars are something that brings destruction and death. Fighting countries are often unaware that fighting is not good. They destroy other people's lives, destroy buildings, cities and Nature.

PROBLEMS CAUSED BY WAR:

- * lack of trust between the nations
- * death of loved ones
- * people leave their country - refugees

IT IS NATIONS THAT CAUSE WARS,
NOT PEOPLE.

People want to lead a peaceful life with their families, and war prevents them from doing so.

The hatred of states causes conflicts, which only destroys people's lives, destroys the countries. Both sides fighting against each other should respect human rights to prevent evil from happening.

PICTURES OF DESTROY

IS IT POSSIBLE TO BE FRIENDS WITH SOMEONE WHOSE COUNTRY IS AT WAR WITH YOURS?

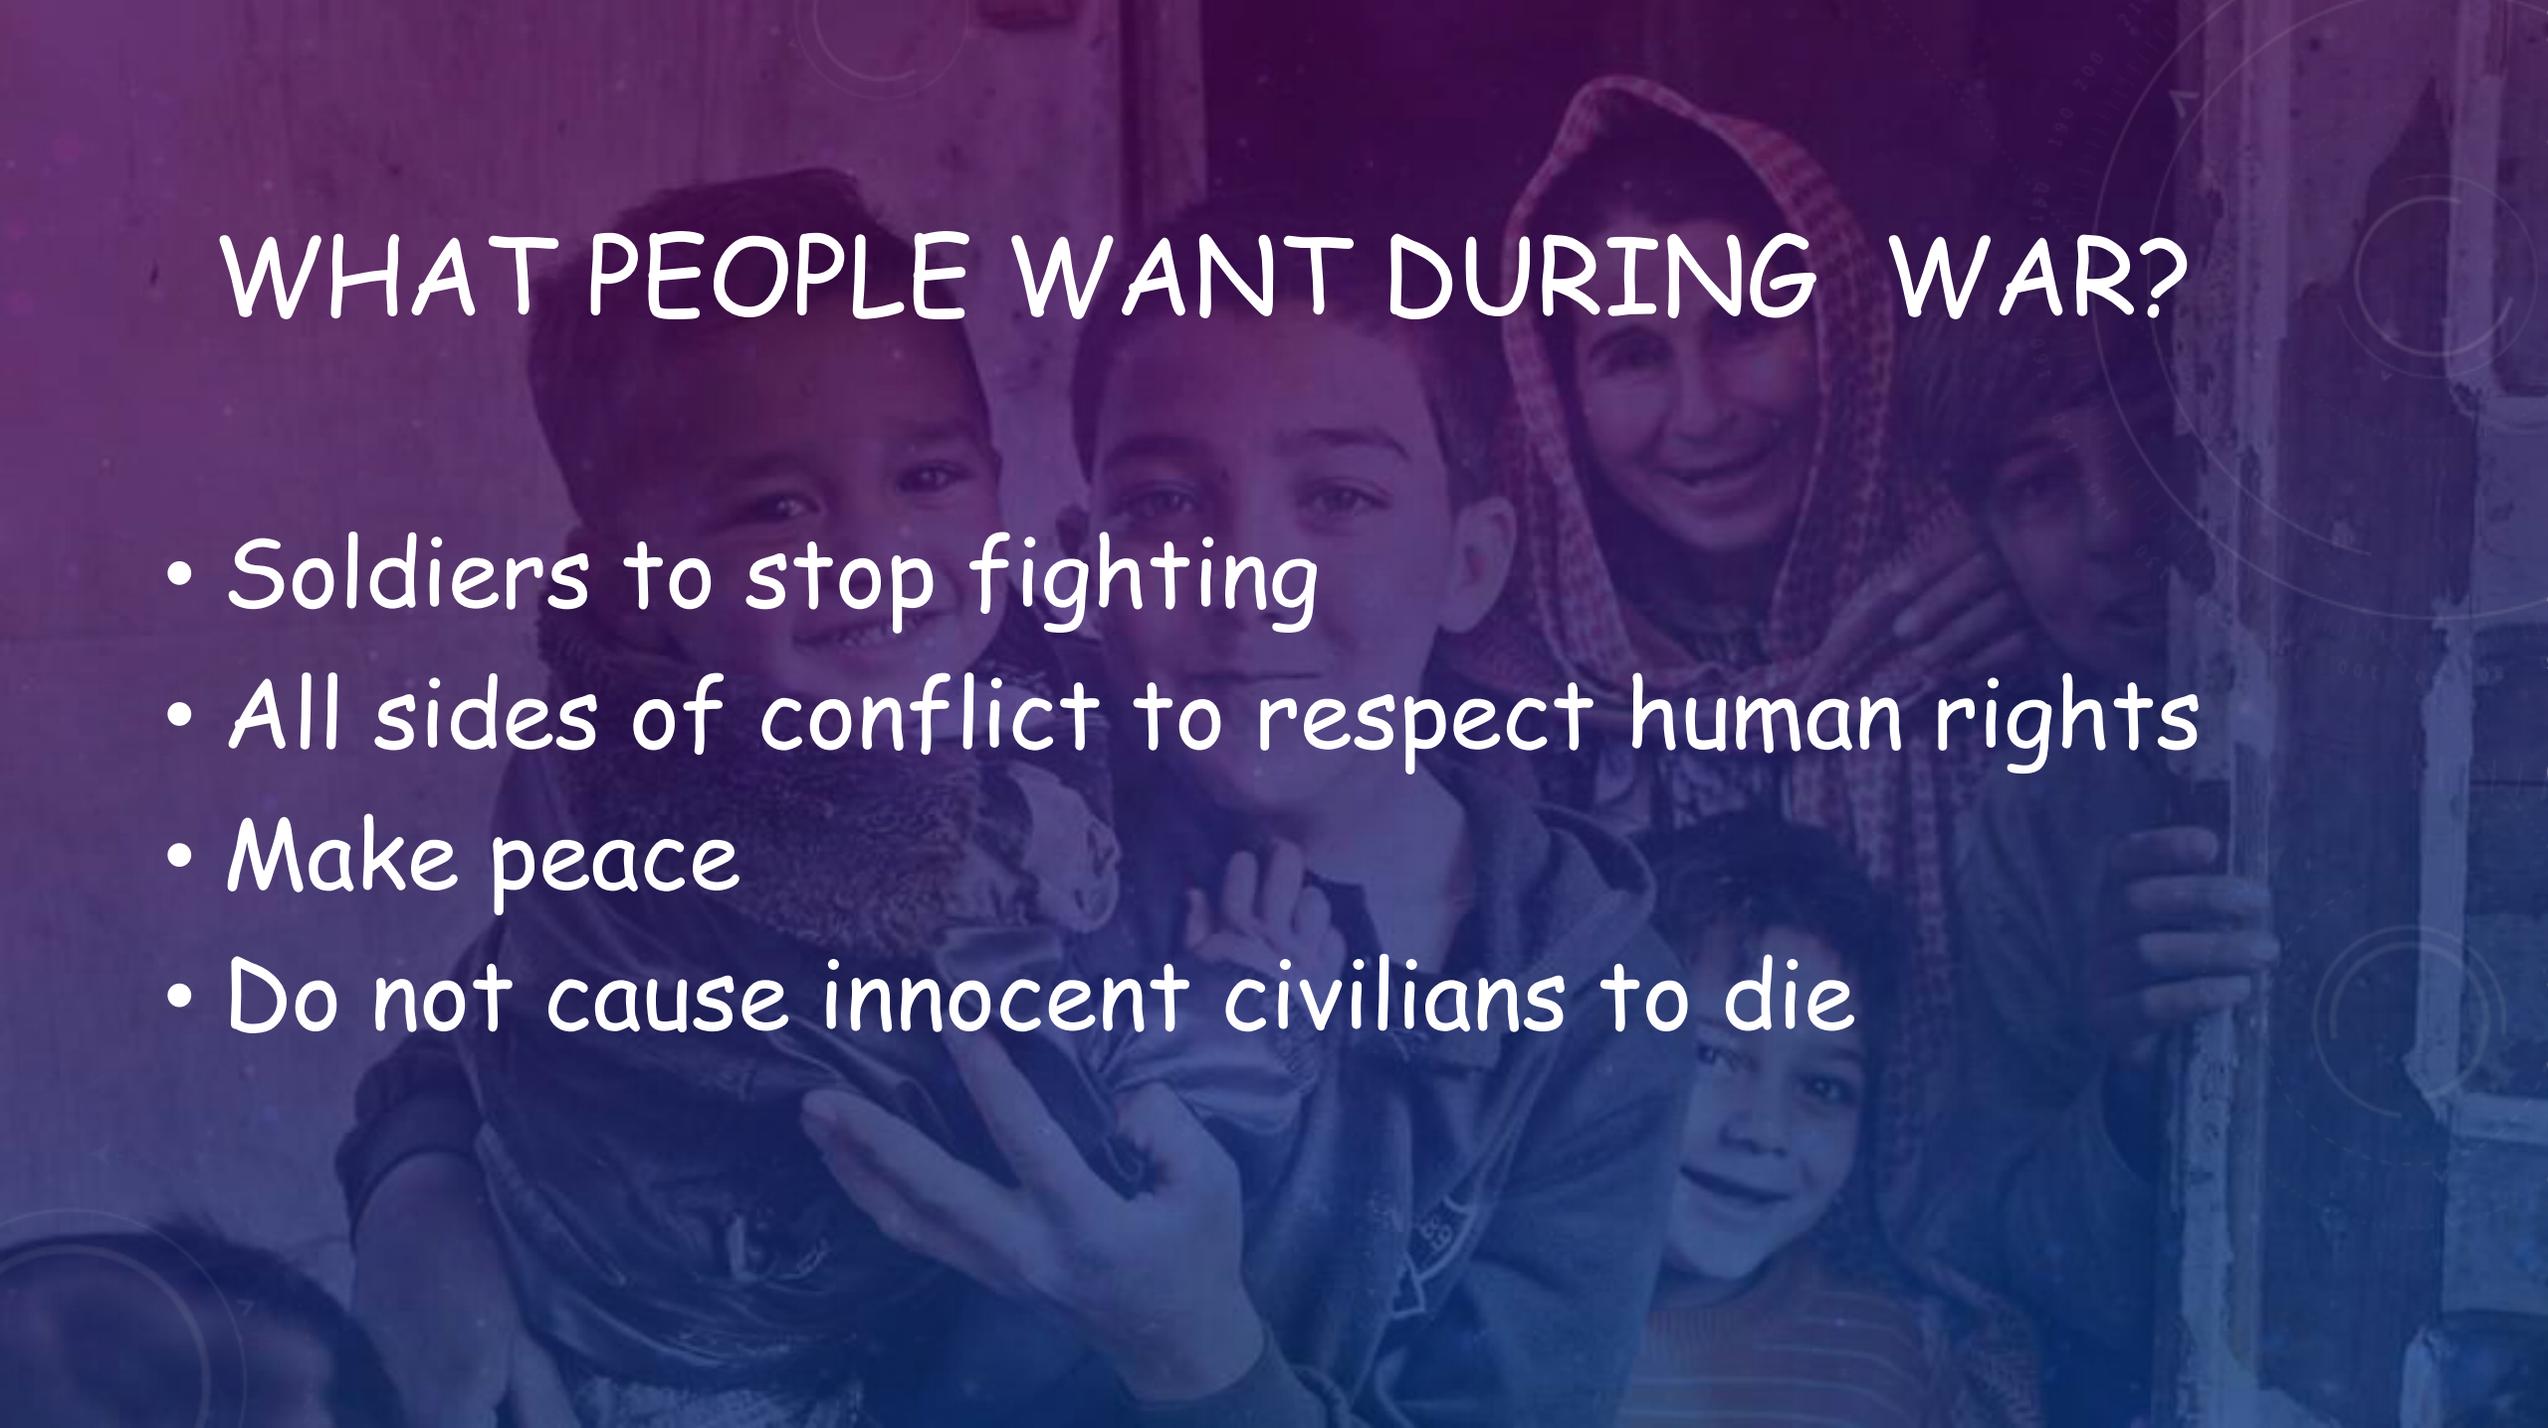

Yes, of course. If we do not look at the world through differences and hate, we see that the other person just like us wants to live happily. People have common goals and dreams - that's important.

LOVE DURING THE WAR

There was a couple - an Israeli and a Palestinian - they fall in love with each other. Jasmin Avissar and Osama Zatar show us that love between people from different cultures is possible despite all the difficulties.

WHAT PEOPLE WANT DURING WAR?

- Soldiers to stop fighting
- All sides of conflict to respect human rights
- Make peace
- Do not cause innocent civilians to die

STOP WAR, BRING PEACE!

It is important not to cause wars that destroy countries. We have to take into account human life, their rights, the desire for a good life.

THANK YOU FOR YOUR ATTENTION!

Wiktor
