#### **What are the most essential principles of our school? Discuss 5 of them. What and why?**

Learning to use our mind well. They teach us how to think not what to think. 2. Democracy and equity. Our school promotes non-discriminatory policies, and practices. 3. Personalization. Our school encourages teachers to treat every person as an individual. 4. Maintaining identity. Our school enables students to maintain a sense of national, linguistic, and religious identity. 5. Preparing for the future. Our school prepares students to obtain professional qualifications and to live in the conditions of the modern world.

#### **Which core values does the school promote during your education duration. Discuss 3 of them. Justify your opinion.**

Our school promotes many core values, such as responsibility, empathy, and respect. Responsibility means the obligation to behave well, having a duty to fulfill. The school encourages us to show this by taking responsibility for our learning, being independent, handing homework in on time, and many more. It advocates for trying to understand another person's perspective or circumstance whether you agree with this person or not and teaches us to respect each other and the environment.

#### **What are the most essential principles of our school? Discuss 5 of them. What and why?**

The school enables students to maintain a sense of identity national, ethnic, linguistic and religious - national holiday appeals, 2. Supporting students in career planning educational and professional career planning - Lessons designed to prepare us for planning and managing careers after school, 3. Preparing students for professional qualifications - conducting practical and theoretical classes focused on passing the vocational exam, 4. The school is organisationally prepared to respond to has emergency response procedures in place in typical emergency situations, and has marked evacuation routes evacuation routes - numerous anti-fire drills. 5. Psychological and pedagogical assistance is voluntary and free of charge - a lot of information sent to the e-journal on psychological support in school.

#### **Which core values does the school promote during your education duration. Discuss 3 of them. Justify your opinion.**

Developing linguistic and communicative competence constituting a key cognitive tool in all knowledge disciplines, including effective teaching of foreign languages - organizing Erasmus so that you could learn a foreign language, usually English. Thanks to this, we were able to talk and gain skill in pronunciation. 2. Organizing and implementing voluntary activities in order to develop in students the idea of a voluntary and disinterested helping others in the school environment and outside the school - making packages for children from the hospice, and collecting food for those in need. In the school cartas circle we collected socks for the homeless, needy people and a collection of diapers for small children. 3. By implementing pro-health activities that oppose pathology and aimed at fighting addictions - during the school year there are many meetings with the police about drugs, aggression, and the educator often talked to us about violence, smoking, and the use of dangerous drugs.

#### **What are the most essential principles of our school? Discuss 5 of them. What and why?**

The top 5 most essential principles of our school are: -Enabling students to maintain their sense of national, ethical, linguistic and religious identity- the headmistress tries to instill in students values to respect their native country as well as citizens of other nationalities and orthodox religions. Students also have opportunity to participate in religious education lessons which are not compulsory -Preparing students to get professional qualifications, teachers conscientiously prepare us for the professional exams by approaching to us with patience, they explain everything clearly and accurately -To provide students to general knowledge that enables them to pursue higher education, teachers do an excellent job of organizing general subjects for us, so when students leaves school can handle higher education without any deficiencies in general knowledge -Shaping the civic attitude among others, learning about tradition and culture for example on history and geography lessons, knowledge is gained about it. -Personality development and preparation for adult life and a specific professional role In society, the school organizes meetings with advisors, from which we learn a lot. This is very helpful for us to start adult life.

-Trips abroad is the one of the most promoted value , the school gives students opportunity to participate in project named Erasmus+, through you can get to know new people and their culture from another country. It is a chance to visit different corners of the Europe and admire them with delight. Also the school gives opportunity to host a foreigner in home, and teach him Polish culture and language, but also know him better . -Organizing appeals commemorating historical events related to Poland, as a development of patriotism in students, conducted in an interesting and reliable manner by teachers of the school, which also gives the opportunity for cultural development of students by performing at them. - Practical preparation to the profession- teachers organized trips to institutions connected with the profession for example to ZUS. Students had opportunity to meet with various advisors at school concerning, for example credits. There were also courses organized for a Cash register and online accounting. Above All, school enables students to get their dream jobs after graduation.
